FIELD DAY

Kindergarten, the initial years of schooling are pivotal in the formation of a healthy personality which is socially and mentally alert, self-confident and considerate of others and who values the environment. Encapsulating these ideals into learning, a field day was organized for the students of the Pre Primary. The day started with the usual routine of Morning Prayer. Amongst the many other activities planned for the day, students enjoyed making paintings with various printing techniques like vegetable printing, ear bud printing and leaf printing the most. They also zealously participated in various races like Balloon Bursting, Lemon and Spoon, Zig Zag etc. The Aerobics and the Yoga sessions filled them with energy and enthusiasm.
